## 2. PROCUREMENT

The estimated global budgetary envelope reserved for procurement contracts in 2024 amounts to EUR 1 865 061.

### 2.1. Information outreach on the Union's humanitarian aid actions

#### Subject matter of the contracts envisaged (*communication activities*)

The funds under this section will be used to increase awareness, understanding of and support for humanitarian issues, especially in Europe and in third countries where the Union is funding important humanitarian operations, by organising high impact public awareness, information and communication actions. These also serve to highlight the partnership between the Commission, specifically the Directorate-General for European Civil Protection and Humanitarian Aid Operations (DG ECHO), and its partners in delivering relief assistance to people affected by humanitarian crises. Communication actions will also contribute, where appropriate, to the corporate communication of the Commission.

DG ECHO's communication approach for humanitarian aid takes into account the specificity of humanitarian aid, with a view to preserving a distinct identity for principled, needs-based humanitarian action, in line with the European Consensus on Humanitarian Aid<sup>8</sup>. The Union is one of the world's leading humanitarian aid donors and plays an important role in shaping the global humanitarian landscape. Providing transparent and accountable information about the impact of the Union's humanitarian aid and disaster response and the underlying values to stakeholders in the wider sense is crucial to underpinning and mobilising continued support and relief assistance.

Joint communication actions with the European Commission's humanitarian partners are integral to this approach. Operational activities funded by DG ECHO will thus fully integrate this imperative, aligned with the visibility requirements of the Commission's Corporate Model Grant Agreement, which came into force under the umbrella of the new long-term budget in 2021.

Communicating the Union's response to sudden onset, ongoing and protracted crises remains at the core of communication planning, together with awareness-raising on more strategic themes, such as the humanitarian consequences of climate change, food security, international humanitarian law, the humanitarian principles and 'forgotten crises'.

Communication channels and actions funded under this budget line will include, inter alia, traditional print media, digital and social media products, journalist visits, audio-visual programmes and media partnerships, online and offline content promotion, and strategic actions with humanitarian partners on key campaigning issues. Priority will be given to large-scale and integrated actions, enabling engagement with specific target audiences.

**Total budget:** EUR 1 415 449

## Method of implementation

Contracts will be awarded and managed under direct management by DG ECHO, where possible using corporate framework contracts with specialised service providers. The Commission ensures that the EU appropriate rules and procedures for providing financing to third parties are respected, including review procedures, where appropriate, and compliance of the action with EU restrictive measures<sup>9</sup>.

For the implementation of the outreach and communication on the ground, DG ECHO and the contractor(s) should loop in the EC Representations in the Member States to make sure that country specific aspects and political sensitivities are taken into account prior to the launch.

## 2.2. Organisation of events, dialogues and exchanges between the Commission, Member States, international organisations and other international actors, including preparation of and participation to international fora or under the policy stream financing for development and humanitarian aid

### Subject matter of the contracts envisaged

Activities (e.g. events and research) contributing to support the European Commission's humanitarian aid priorities. These may include, inter alia, donor outreach and exchanges, high-level humanitarian events in the UN framework, initiatives and expertise to support the effectiveness and efficiency of the humanitarian system.

An amount of **EUR 200 000** will be used as the DG ECHO's contribution to the Syria pledging conference, organised by DG NEAR in the first half of N+1.

The total amount for the organisation of events, dialogues and exchanges between the Commission and international actors such as donor and pledging conferences and the organisation of events, dialogues and exchanges between the Commission and international organisations is set at **EUR 449 612**.

#### 3.2. Commission's membership fees and contributions to international organisations and networks

##### Subject matter of the contracts envisaged

**Commission's membership fees and contributions to the Active Learning Network for Accountability and Performance (ALNAP), the Cash Learning Partnership (CaLP) and the Inter-agency Network for Education in Emergencies (INEE)**

##### *Alnap*

Based on Commission Decision C(2021) 4020 final, the Commission has started its participation in 2021 as a formal, paying member of the Active Learning Network for Accountability and Performance (ALNAP), under the Commission's rules for participation in private-law bodies. Similar Commission decisions are expected to be adopted for the Cash Learning Partnership (CaLP) and the Inter-agency Network for Education in Emergencies (INEE).

<sup>10</sup> C(2020)6126, 09.10.2020.

ALNAP's activities support DG ECHO's implementation of the Commission's Better Regulation Guidelines<sup>11</sup>, which have a strong focus on learning (as well as on accountability) and clarify that 'Better Regulation means designing Union policies and laws so that they achieve their objectives at minimum cost'. Better Regulation is a way of working to ensure that political decisions are prepared in an open, transparent manner, informed by the best available evidence and backed by the comprehensive involvement of stakeholders.

ALNAP's objectives and general activities are well aligned with the objectives of Council Regulation (EC) No 1257/96 concerning humanitarian aid<sup>12</sup>, which is based on the fundamental principles of humanitarian aid<sup>13</sup>.

**Budget: EUR 100 000**

#### *CaLP and INEE partnerships*

The Cash Learning Partnership (CaLP) is a network of actors with the primary objective of maximising the potential that humanitarian cash and vouchers assistance (CVA) can bring to people in contexts of crises. DG ECHO has made multiple policy commitments, most recently reiterated in the 2021 Communication on the EU's humanitarian action<sup>14</sup>, to scale-up the quality and scale of cash assistance.

Membership of CaLP will enable DG ECHO to be actively and proactively engaged in the collective mission of the network. This will publicly demonstrate to DG ECHO's humanitarian partners and other stakeholders – including donors in the Donor Cash Forum which DG ECHO chairs – that DG ECHO is committed to advancing CVA and best practice across the sector.

Membership will allow DG ECHO to strategically influence cash assistance, by shaping influential technical developments (e.g., developing common standards and good practice guidance), shaping the global research agenda to further strengthen the evidence base for cash, influencing CaLP's policy work, including identifying priority issues to shape the future of cash-based assistance, and influencing strategic direction and oversight, for instance through the Board, Technical Advisory Group and Working Groups.

The Inter-agency Network for Education in Emergencies (INEE) is an open, global, non-profit network of members working together within a humanitarian and development framework to ensure all persons the right to quality, safe, and relevant education. DG ECHO membership in its Steering Group will provide an opportunity to strategically influence the global policy development in the education in emergencies sector, contributing to strengthening the position of the EU as a global actor in this field. It will also be a platform for further encouraging the humanitarian-development-peace nexus approach and steering the engagement with policymakers, donors and practitioners on the complete scope of education in emergencies issues.
