Other 4%

Mine action 4%

Water, sanitation & hygiene 9%

Shelter 29%

Education in emergencies 7%

Food and basic needs 4%

Protection 8%

Health 8%

Cash assistance 27%

PRESENTING THIS MONTH: WINTER IN UKRAINE

In November 2023, the EU allocated an additional **€100 million** in humanitarian aid for Ukraine, **€33 million** of it was destined to protect Ukrainians from the harsh winter conditions.

€10 million was allocated to International Organisation for Migration (IOM) for:

- **repairing** damaged houses and apartments
- providing **winter fuel** to households in hard-to-reach areas
- supporting **water systems** in highly vulnerable oblasts including in Dnipropetrovsk, Kharkiv, Donetsk and Zaporizhzhia

€5 million was allocated to the UN Refugee Agency (UNHCR):

- providing **emergency shelter** for people in areas with heavy shelling
- to **repair damaged houses**
- and providing **access to accommodation** to internally displaced persons
- UNHCR provides EU-funded assistance **in all oblasts** under the control of Ukraine, but winter-specific aid is provided in Mykolaiv, Dnipro, Zaporizhzhia, Donetsk, Kharkiv and Sumy oblasts

In addition to humanitarian aid, the EU mobilised 500 additional power generators in December 2023 from its **strategic rescEU reserves** to strengthen Ukraine's energy resilience during the winter months. Together with this deployment, more than 5,500 power generators have been sent to Ukraine via the **EU Civil Protection Mechanism** since the beginning of the war.
